The Brooklyn Ulcer.

New York Nov 13.—Mrs. Emma C Moulton last evening served a paper upon Thomas G Shearman clerk of Plymouth Church. In it Mrs. Moulton calls upon Plymouth Church to join with her in calling a council of churches before which the action of Plymouth Church in dropping her name from its roll may be brought. In case her request is not granted within four weeks she states she must call a council with the co-operation of Plymouth Church.

It was stated yesterday that a meeting of the committee appointed by the New York and Brooklyn association of Congregational Ministers to inquire into the causes which were brought before the courts, would be called in the course of a few days. A prominent Congregational clergyman said yesterday that the recent act of Plymouth Church in dropping the names of Mrs Moulton and Deacon West from the roll of membership may result in a call on the part of the churches for mutual council and that such is to be the case should the former be refused by Plymouth Church

Bowen was called upon yesterday by a reporter in reference to the statement that a movement was being set on foot by some members of Plymouth church, to have his name dropped from the roll of members. In the course of conversation Bowen said "If Plymouth church has anything against me, I am here to answer, and have been ready to do so ever since the controversy began. I have done nothing which I am either sorry for or ashamed of. If a few restless and unwise people in the church should make a move such as was made in regard to Deacon West and Mrs Moulton most certainly I should defend myself, and the result would, in my judgment be serious to the interests of the church. All I ask for is fair and just before God and man. I do not intend to be intimidated or thrown ..., or driven to adopt any other course than what is right, proper and Christian like and I should resent any other course of treatment toward me on the part of the church. Previous to going to the country I attended church. What I shall do in future I have not fully determined

WASHINGTON CITY

Report of the Secretary of the Treasury.

Chicago, Nov 13—A Washington special says Treasurer New's report, now in the hands of the printer contains some suggestions that have never been published. One of the strongest points he makes is in the mode of payment of members of the House of Representatives. Hitherto members' pay has been issued to the sergeant-at-arms on the certificate of the speaker. The certificate of the speaker is not any protection to the treasurer. It may be incorrect, and if the treasurer pays out more money than the appropriation allows it is to come out of the treasurer's pocket notwithstanding the error has occurred in the speaker's making up of the account for mileage &c. Mr New wants the House of Representatives to be made responsible for the pay of its own members or else have the accounts audited at the Treasury Department before coming to him.

He also recommends that a charge be made in the assessments of national banks for the support of the redemption agency. Under the present laws banks that withdraw their circulation for redemption are exempt from the assessment, only the banks that remain in active circulation being taxed. This places the expense of about 2 per cent. of the national banks who use the redemption agency ... Mr New advocates a uniform assessment upon them all. He also desires to cross out from the books some of the old deficits that have been handed down from Hamilton's time. One item of this character is $28 000 000 charged to the treasury department that was paid out to the States in 1836 in Andrew Jackson's time. There are some items even older than these. Their presence upon the books still is a brilliant evidence of the wonderful and complicated way former officials have had of keeping government accounts

A Call at the White House.

The French Assembly.

Paris Nov 13.—In consequence of its triumph in the Assembly yesterday the conservative party intends to take the lead in favor of a dissolution. It is generally believed that the Assembly will dissolve in December and that elections will be held for senators in January, and for representatives in February. President MacMahon has thanked Minister Buffet for his speech yesterday and congratulated him on his success in the Assembly to-day. Dufaure introduced the press bill. By its provisions the state of siege is to be raised except in Algeria and in the departments of the Seine, Rhone, Bouches Du Rhone and Seine Et Oise. It also provides that misdemeanors of press offenses such as insults to the authorities, false intelligence and instigation to crime shall be tried by correctional tribunal instead of by jury. The consideration of the electoral bill was resumed and adopted providing that Algeria shall have three representatives instead of six in the new chamber of deputies

A Destructive Tidal Wave.

London Nov 13—A tidal wave ten feet high swept up Parrett river Somersetshire to-day. Bridgewater dock gates burst and vessels broke from their moorings. One vessel was sunk and 20 others were more or less damaged. The weather is still inclement and floods increase

Knighted.

Wade the British minister to China has been knighted

Cholera in the Way of the Prince of Wales.

Cholera in Neilgherry district interferes with the movements of the Prince of Wales

The Prince arrived to-day at Poonah and had an enthusiastic reception. It is doubtful if he can visit Madras owing to the cholera in that presidency

The Malayan Difficulty.

Penang Nov 13—A force of 300 troops now garrisons the British residence at Perak. Sultan Abdallah is friendly to the British. It is thought that the murder of Mr Birch, British resident was unpremeditated. The Malays however are arming defensively. Gov Jervais is preparing for military operations.

Prince Milan Reviews his Troops.

Belgrade, Nov 13—Prince Milan while reviewing troops yesterday announced that the changed political situation made it unnecessary to send them to the frontier

WEST INDIES.

Vespers.

Havana Nov 13.—Captain General Valmazeda has issued a decree prohibiting persons living between the lines formed by the Iguas and Palmillas and the Tochar Jaucro and Moran from traveling after dark and warning them they may be shot by patrol and pickets

LETTER FROM SEATTLE

SEATTLE Nov 12, 1875

TO THE EDITOR OF THE OREGONIAN

J W George is building three very nice dwelling houses for renting on Third street and so urgent is the need of buildings of this kind that long before the frames for these were completed they were rented. There is not at present a vacant house in town, and in some cases the very barns are being patched up to afford shelter for the winter. H L Yesler, the inveterate wharf builder is enlarging the storage capacity of his wharf by erecting a new storeroom in order to meet the fast increasing demands of the immense quantity of freight brought here

The new brick bank will be, by long odds, the most handsome building in Seattle when completed. There will be two stores besides the banking rooms on the first floor, to be occupied by Kellogg & Thorndike, druggists, and W G Jamieson, jeweler. The building is under cover, and the inside finishing is being rapidly pushed

BURGLARY

On last Thursday evening the residence of Mr Kinsey was entered by sneak thieves while a portion of the family were at prayer meeting and the remainder out to a church sociable and about $500 in coin, together with various other articles of value were stolen

The drug store of Kelly & Co was robbed on last Monday or Tuesday night of about $5 in ten cent pieces, that amount being all that was left in the drawer. Entrance was effected through a window in the rear of the building, turned off the gas, rifled the till and escaped unnoticed

SOCIABLES

Church sociables are very fashionable in Seattle just at present. The Methodist Episcopal Church people enjoyed a very pleasant hour at the residence of Dr J C Kellogg on last Tuesday evening. On Thursday evening the members of the Presbyterian Church met at Mrs Calvert's and after an evening spent in social intercourse, separated with a pleasant remembrance of the occasion

SHIPPING.

The *Alida* has, for the past week, been lying at Yesler's wharf undergoing general repairs. She will go on her route between Seattle and Olympia, some time during the coming week. The *Zephyr* has been carrying the mail in her place on Wednesdays, from Tacoma and return during this time

The old *Eliza Anderson* belonging to Capt Finch of San Francisco, is tied up here after having been painted and partially overhauled. Why this tieing up no one knows

The little propeller *Favorite*, from Portland, after being repaired for active operations, is lying here idle

The *Otter* is doing good service for the Renton Coal Company, in towing their coal barges to and from the mine and Seattle and is undoubtedly a paying investment

The schooner *Ocean Pearl* in ballast, arrived here last night and will probably load with coal

The bark *Henry Buck* reached Seattle on Wednesday night, bringing a small freight for this place. Probably will load with coal. This is her first passage to Puget Sound. She is owned in Steilacoom and will be employed in the coasting trade. Register about 700 tons

Bark *Iconium* is loading lumber at Colman's mill

Bark *Oriola* is out in the bay waiting her turn at the Seattle Coal Company's wharf

Bark *Osmyn* is discharging ballast, and will load with Seattle coal

Bark *Harvest Home* is loading Seattle coal for San Francisco

The barkentine *Hesperian* is lying at anchor taking in Renton coal from barges. She will be ready for sea in a few days

FREEPORT.

The ship *John Jay* and barkentine *Grace Roberts* are loading with lumber at Marshall's mill. The bark *Jenny Pitts* is awaiting a load of lumber. All for San Francisco. K C W

The Chicago *Times* has this special from Washington under date of October 29th

A scandal has been developed here of which as yet the facts are somewhat obscure. A few days ago a lady formerly employed in one of the departments here was dismissed. She applied to the head of the office to be reinstated. He promised to reinstate her provided she would consent to a dishonorable proposition which he made to her. This she indignantly refused. The lady then went to the president and made a statement of the case to him. He advised her to go before a justice of the peace and make an affidavit in support of her charges. This she has done and the same has at the request of the president been forwarded to him. An investigation has been ordered and is now being quietly prosecuted. The name of both the lady and the offender is kept strictly secret until the investigation is concluded. It is thought however that the officer charged is not a member of the cabinet but the head of some one of the bureaus of the interior department

Mr Moody is the most rapid speaker the New York stenographers have ever had to encounter. The *Tribune's* swiftest stenographer took down from his lips 2,200 words in ten minutes by the watch. This is at a rate four times as rapid as that of Mr Evarts and a third faster than that of Mr Beecher, two of the most difficult speakers to report.

Yakima county has an area of 130 miles square and has thousands of acres of the best sage land lying vacant awaiting settlers

Cruelty to Seamen.

SAN FRANCISCO Nov 13—Captain Doane of the ship *Granger* was to-day held to answer by U S Commissioner O'Beirne on a charge of cruel treatment of a seaman on his ship. The evidence showed extreme brutality on the part of the captain. The man afterwards fell overboard from aloft and was drowned and it is charged the fall was occasioned by the paralysis of his limbs from the treatment he had received

Captain Daniel R Frazier of the whaling ship *Illinois* charged with cruelty to seamen has been brought down from Sacramento where he was arrested by the United States marshal. He was released from custody on giving bonds in the sum of $5 000

The *Post* this evening publishes a long account of still another outrage on seamen on the British ship *Borrowdale*. Two men—one suffering from disease, another from injuries received—were kept on board in damp and unwholesome quarters, with insufficient attendance, their condition not having been made known to the British consul who attends to such cases and secures their removal to the hospital

A Defaulting Book-keeper

The book keeper of a wholesale clothing house is reported missing. An examination of his accounts, it is rumored discloses a deficiency of somewhere between $5 000 and $20,000

The Great Races Postponed.

By special stipulations incorporated in the rules laid down by the Pacific Jockey Club for the government of contests all pools follow the race contrary to the usual custom. The race will not probably come off before next Saturday. The matter will be decided at a meeting of the Jockey Club this evening.

Earthquake in San Francisco

SAN FRANCISCO Nov 14—A smart shock of earthquake occurred at 7 55 this evening. Vibrations were from east to west. No damage reported

The Great Race Postponed.

SAN FRANCISCO, Nov 14—The race was postponed yesterday on account of rain but will come off next Saturday, track and weather permitting. A visit to the track shows it is in very bad condition and it is the opinion of competent judges that it cannot be put in proper order before Saturday, with continuous good weather in the meantime. It rained here during the morning and the weather is still unsettled though clearer this evening

The Weather.

The storm appears to have been general throughout the State, particularly in the northern and central portion where the rain fall has been considerable. The gale along the northern coast has been unusually severe. Vessels from Umpqua, Shoalwater Bay, Port Orford and other points all refer to it in similar terms. Several minor accidents to coasters are reported

Mining in the South.

SAN DIEGO, Nov 13—News from the Mojave country states that various mines are looking far better than ever

Heavy Rains.

SANTA BARBARA Nov 14—Rain commenced falling early this morning, and continued until daybreak, raining only at intervals until about 3 P M, when it ceased entirely. To-night it is clear

JACKSON, Nov 14—The rain still continues heavily without any signs of abating. Heavy rains still fall in Calaveras and Tuolumne counties

SAN DIEGO, Nov 14—It rained considerable last night and several showers fell during the day, raining quite hard this evening

Work Postponed.

SAN DIEGO Nov 13—The work of turning San Diego river will not be commenced until next spring. The first plans submitted by engineers not being approved the second ones will not be returned from Washington in time to accomplish anything this season

Indians Refuse their Annuities.

On the 10th inst Mr Dryden agent for the Temecula Indians, went to their ranches with $300 worth of blankets calico, etc, for the Indians that had been placed at his disposal. Mr Dryden talked to them through an interpreter but they stolidly refused to receive any of the articles and the agent left them as he found them. The supposition is that the Indians are not suffering and in the absence of Olegario, their chief, fear some trickery in the offer made them.

The Shock in Oakland and San Jose.

OAKLAND, Nov 14—A slight shock of earthquake was felt here this evening a few moments before 8 o'clock

MISSION, SAN JOSE Nov 14—Just now 7 30 P M two heavy shocks of earthquake occurred here lasting about seven seconds being the heaviest since 1868

ARIZONA

Trouble with Indians.

TUCSON Nov 13—The latest advices from Sonora represent public affairs in anything but a satisfactory condition. It was rumored that fighting would commence in the district of Altar, but up to the present time nothing has been done. E C Kimble, Indian Inspector is here. He is reported as being in favor of removing the Pimas and Maricopas to the Colorado river reservation. All agree that some change of location is necessary to preserve peace and security

Carruth, the Vineland editor who has lived since March with a pistol ball in his brain, has at last died, and his slayer, Chas K Landis has been surrendered by his bondsmen and now lies in jail. The affair was caused by Carruth's persistence in low, disreputable attacks through his paper on the character of Landis and his family. The Washington *Chronicle* makes the affair the occasion and text for a very severe and very just article on the style of journalism which can get no higher than personal abuse and slander

THE WRECKED STEAMER.

Recovery of a Body Supposed to be that of Mrs Hellmuth.

PORT TOWNSEND Nov 13—The steamer *Goliah* has just arrived from the Cape bringing another of the bodies of the passengers on the steamer *Pacific*. This body was found floating twelve miles west of Race Rocks and five miles south of Vancouver Island about mid channel. It is the body of a woman of apparently thirty to thirty five years of age, five feet four inches in height, full face regular features, black hair, wearing a plush cape (imitation of sealskin), with black fringe one and a half inches wide and a No 4 boot. When found she had on three rings, one marked O H, had been apparently cut on one of its edges recently. Another ring was thinner and also had the appearance of being cut. The earrings were of gold and enameled with four pearls set in diamond shape. The body will be interred in the Masonic burying ground. The operator says: I have seen the body and think it is that of Mrs Hellmuth of Walla Walla

Further Search for the Dead

The revenue cutter *Wolcott*, after the brilliant service already noted, has again been dispatched by Collector Webster to the scene of the disaster, though the hope of ever recovering any more of the dead seems a forlorn one. The officers are nearly worn out, but before returning will examine with care the Washington Territory shore and make inquiry among all the Indians residing in the vicinity

Memoranda of the Ship Orpheus.

PORT TOWNSEND Nov 13—The following is a memoranda of the ship *Orpheus* which collided with the steamship *Pacific*

Thursday, Oct 28 1875—Left San Francisco for Departure Bay, B C in tow of the tug *Lookout*. Had the usual light southerly weather till Thursday, Nov 4th when the wind commenced to breeze up from the S S W to S E with thick, rainy weather. At noon Cape Flattery light bore north one-fourth west distant 90 miles, course steered N by W till 8 P M, distance 65 miles; then stood W N W, wind increasing and sea getting up, thick and rainy. At 9 10 light reported on port bow. The 2d mate in charge of the deck altered her course to N W by W and brought the light on starboard bow. I went on deck and found a steamer mast head light, but could see no colored lights but saw several saloon lights. I kept the light on starboard bow and brought the ship up to W S W, yards square and sails aback. The 2d mate thought he could see a red light but I could not, and told the mate at the wheel to hard up and before she paid off two points countermanded the order and had the wheel put hard down. In about two or three minutes the steamer, then about 4½ points on the starboard bow, blew her whistle and in half a minute afterwards she struck us on the starboard fore channels, carrying away the fore topgallant and back stay and mast, breaking in our rail for about 40 feet, splitting the covering board and plankshear, splitting planks from plankshear to the copper, and staving four planks in through the timbers, also carried away all the starboard braces, main topgallant back stays, mizzen topmast and topgallant back stays and bumpkin. I hailed the steamer and asked her to lay by and send me a boat, for I thought my ship was sinking. After sounding the pumps, etc, I commenced to shorten sail and heave the ship to with head to the S W. The steamer hailed me three times but I could not make out what she said. At midnight I had the ship under three lower topsails, main and fore topmast stay sails, and reefed spanker, heading from S S W to S W, and drifting to the W N W about two knots. It then was blowing very hard from S E and bad sea getting up

Friday Nov 5th—Blowing heavy from the southeast, and very bad sea, at noon the wind moderating and canting to the west; at 4 P M wind west, wore ship to the southward and saw the land bearing N N E, took it to be Cape Flattery, saw a sail standing toward it; at 6 saw the light and supposed it to be Flattery light; gave orders to the mate to keep five miles off, got the light to bear south, and then steered east, at 2 A M was on deck, the light then bearing east and west; steered east, at 4 o'clock was called and told she was in mid channel and had lost sight of the light, at 5 the ship struck on a reef, and ran hard and fast on the rocks going about five knots at the time, found the ship filling fast and got sails off her and the people out of the ship

At 9 A M Saturday sent the mate with four men in a boat to look for assistance

Sunday, Nov 7th—Stripping the ship

Monday Nov 8th—Saw a canoe with two Indians, sent them to a white man about three miles distant, a Mr Andrew Laing, an Indian trader, who received us with great kindness and rendered to us all assistance in his power with his Indians

Tuesday Nov 9th—Blowing a gale from southeast, ship half under water, could not board her.

Wednesday Nov 10th—Rough and could not board the ship; decks washed away and all the sails, stores, &c saved washed away. Mate and six Indians in a canoe started again for Victoria. At 4 30 the U S revenue steamer *Oliver Wolcott*, Lieut Harwood commanding, came to where we were, bringing in the mate. She was cruising for the wreck of the steamer *Pacific* and my ship

Thursday November 11th—Was received on board the *Wolcott* with my crew and all their effects and what property I saved. Visited the wreck and found her in such a position that nothing could be saved. Concluded to leave the mate in charge and the rest of us to go to Port Townsend with the cutter. Was treated with great kindness by her officers who did everything in their power for our comfort and arrived in Port Townsend on Friday November 12 1875.

A GOOD TIME AT EAGLE CREEK

TO THE EDITOR OF THE OREGONIAN

A very pleasant time was had on Saturday evening the 6th inst in connection with the public installation of the officers of Eagle Creek Lodge, No 286 held in the school house hard by the old Philip Foster Homestead. According to previous arrangement G W C T W R Dunbar and State Deputy C H Walker were present to assist in the installation. The exercises were opened with instrumental music by Isaac Foster Esq after which State Deputy Walker gave a short address of welcome and encouragement which was followed by instrumental music and recitations by Mrs Ella McLeran and Miss Allie Vancuren and a declamation by Eugene Vancuren after which the G W C T proceeded to install the following officers assisted by Bro Walker acting as grand secretary and Bro Josiah Bell as grand marshal: W C T W H Luke; V T Allie Vancuren; Sec'y Lila McLeran; F S, Martha J Earl; T Mattie Foster; Chap Emma Bell; M Eugene Vancuren; D M, Nettie Lake; I G Horace Bell; O G Turner Walkley; A S, Albert Forrester; R H S Lydia Forrester; L H S Rebecca S Bailey; P W C T J L Ruly. The G W C T then addressed the members and the large audience present in an earnest and interesting lecture of an hour's length showing the necessity of organized effort and the great good being accomplished by our temperance organizations

C H Walker then sung a song entitled "Drinking Gin" which was well received after which a call was made for volunteers to join the temperance army which was nobly responded to for as soon as the audience was dismissed and the lodge called to order *twelve* names were sent in, two by card and ten for initiation. All being duly elected, they were introduced and mustered into service. Then followed a recess at which refreshments were quickly spread out, and partaken of with the zest which such an occasion always gives. After being called to order, a short time was devoted to "Good of the order," after which the lodge was duly closed and the members went rejoicing to their homes. ***

EAGLE CREEK, Nov 7th 1875

LETTER FROM OLYMPIA.

OLYMPIA Nov 12 1875

TO THE EDITOR OF THE OREGONIAN

The petition presented to-day by Mr La Due from the residents of Cowlitz county asks for an appropriation of $10 000 to remove obstructions from Toutle river and for draining Silver lake, stating that a large tract of country can be made available by such action. The matter was referred to committee on memorials

H B 4 to amend the act incorporating the city of Walla Walla only refers to giving certain powers to the mayor and council of that city

From the length of time that has intervened since the reference of the school bill to the committee on education, I fear that impediments may be thrown in the way of its passage which would rather be a subject of regret as I believe it to be a good bill

A bill introduced to-day by Mr Newland for the better observance of Sunday, makes it illegal to open theaters, race courses, play houses, cock pits, or play games of chance for gain or engage in any noisy amusements or keep open any drinking or billiard saloon or sell or dispose of any intoxicating liquors as a beverage or keep open any mercantile store, blacksmith's or shoe shop, or hardware store or groceries of a mercantile nature whatsoever, on Sunday. That no judicial business shall be transacted on that day excepting a jury may be considering a verdict. The fine for violation of this law is placed at $30 and not more than $200.

C. B 23, to vacate an alley in block 10, in Olympia was indefinitely postponed

The House also refused to pass a bill incorporating the northwest terminus of the N P R R. Poor Tacoma!

The House bills for preservation of fish, to organize Stevens county and providing for the representation of the counties of Walla Walla, [illegible], Whitman and Stevens were passed

C B 27, relative to keeping Territorial convicts and granting 85 cents per diem to jailers was ordered engrossed

H B 14 prohibiting the sale of intoxicating liquors on election days was amended so that it will not be illegal to open saloons after the polls have closed on such days, after which the bill was passed

C B 21 provides for an appropriation of $1 500 for repairing the University at Seattle, and was passed by the Council

Mr Cain, chief clerk of the Council, having resigned his position, Mr C C Perkins assistant clerk was elected to fill the vacancy, and Judge J M Lowe to fill the office of assistant clerk. These officers being sworn, resumed the duties of their office.

The nominations for Territorial officers made a few days since by the governor, not having been confirmed by the Council, the following nominations were submitted on Friday afternoon: For Librarian, F S Holmes; School Superintendent, D R Bigelow; Auditor Elwood Evans; Treasurer, F. Tarbell. The consideration of the nominations was made the special order for Monday next at 11 o'clock.

REPORTER.

BRITISH COLUMBIA.

Two vessels with steel rails for the Canadian Pacific Railway have arrived in Victoria harbor from England

The treasure lost on the *Pacific* was insured in the Ocean Marine, Indemnity, Union & Royal Exchange Insurance Companies of London. The amount was over $72,000.

The following amounts of gold were shipped from Victoria, through Wells, Fargo & Co, on the *Salvador*, on the 10th: Bank of British Columbia, $17,182; Bank of British North America, $25,764

A three quarter interest in the Van Winkle Co, Lightning creek, belonging to Harry Jones, changed hands last week at $4,000. Mr T R Patullo was the purchaser. Six thousand dollars were offered for a full interest and refused

The three principal claims on Lightning—the Van Winkle, Victoria and Vancouver—have yielded as follows for the nine months ending 30th October ult: Van Winkle Co, $[illegible]18 282; Victoria Co $202 282; Vancouver, $84 111

Telegraphic inquiries were received in Victoria from Ottawa and other parts of Canada, California, Nevada and nearly all the Eastern States and from England and Ireland as to the fate of persons supposed to be on board the *Pacific*

Capt Parsons was on board the *Prince Alfred* when she was wrecked, was on board the *Los Angeles* when she broke her shaft, purchased tickets for San Francisco by the *Dakota* but was unable to get away in her; sailed in the *Pacific* and is lost with all his family.

H M S *Fantome* 4 guns commander Long arrived in Esquimalt harbor at 12 o'clock Tuesday night. She is about the same class ship as the *Myrmidon*, and will remain on that station some weeks. At the request of the Lieutenant Governor, Commander Long put to sea the next day to assist in the searching for the shipwrecked people

In the races at Victoria last week on the first day the two mile and repeat race for $500 was won in two heats by Mr Bigham's Foster who beat Mr Young's Billy Bigham by a length in each heat. The first heat was run in 3 46 and the second in 3 48. The half mile race was closely contested, resulting in favor of Mr Scoggins' mare Alpha closely pressed by Mr H D Saunders' Hiram. For the Scurry stakes four horses entered, and it was won by Mr H D Saunders' Buck

On Sunday (the 7th) afternoon about three o'clock Messrs M Longden, Walter Sawyer and George F, Furguson (who were in the employ of L Baker, Esq, the contractor for building the lighthouse on Entrance Island) started from the island in a good sized boat about 18 feet long and capable of carrying 12 persons for Nanaimo. When the boat was 200 yards from the island it became necessary to "tack." In doing so Longden who weighs about 225 lbs, failed to change his position. This caused the weight to be on one side, and the boat filled and turned bottom upwards. The three men managed to get on the keel of the boat. In a short time Sawyer slipped off and was seen no more. After the boat had drifted about a mile in the direction of Lighthouse Island Longden was seen to drop into the chilling waters. The boat with Furguson still clinging to the upturned keel drifted out into the Gulf. As the boat disappeared in the far distance the form of a man could be seen upon it. The sea was smooth and the wind light at the time of the accident. Those on the island used their best endeavors to save the unfortunate men by throwing planks and sticks out toward them, but without avail. There was no other boat on the island. There can be no doubt of the sad fate of Longden and Sawyer but there is a possibility that the boat with Furguson upon it may have drifted ashore on some of the numerous islands, or been picked up by a passing vessel

The Louisville *Courier Journal* speaking of reform in journalistic literature says:—"We are going back to the Addisonian period of literary license if not to that of Balzac or Montaigne or Rabelais. We must guard the chastity of composition only a little less carefully than we guard the chastity of women, for I [illegible] the one will have a destructive effect upon the purity of the other."

The Rev Robert Collyer introduced Mr Theodore Tilton at his lecture in Chicago recently and in doing so said: "I have been requested to introduce the lecturer of the evening and do it gladly for the sake of old friendship. I have broken bread with him in his house in years gone by, and he has broken bread in my house and we shall [illegible] keep on doing so as long as we [illegible] to break

Geo Towle, of Wasco county aged 16 years was convicted of the larceny of a horse on a plea of guilty in the circuit court last week. An effort will be made to secure his pardon, and his case seems to be a meritorious one

The Pennsylvania colony, which lately settled on Hood river, is mostly composed of mechanics and artisans. They intend building a college, a woolen mill, a grist mill and other factories for the manufacture of various articles

A right lively time was had at Springfield recently on a Sunday eve, caused by an attempt on the part of a crowd to engage in a first class charivari, which resulted in a free fight, wherein the aggressive party came off victorious

Mrs. C W Shively, who has been studying the German and Italian opera the past year under some of the best instructors, having been previously encouraged to do so by many of the best musicians of San Francisco will henceforth follow the opera as a profession

The late rains have put back the fall work on Tualatin plains considerably. But very little plowing has yet been done, and scarcely any of the farmers have got their fruit gathered or potatoes dug yet. The frost has kept off remarkably late this season. The tomato vines are green yet, as in midsummer

Samuel Craig, aged about 70 years, living near Monroe, has, during the last spring and summer, trapped 1,533 ground squirrels, and took first premium at the State Fair for the same. He has also trapped and killed 33 skunks, 12 weasels and 24 blue jays. About 70 bears have been killed in the Belknap settlement within a few months past

The farmers of Benton county are crowding their plowing, between showers. Last Tuesday forenoon, says the Corvallis *Gazette*, as we went out to attend the funeral of Mr John Kendall, we noticed five or six plows running in some fields but none were visible to the naked eye as we returned in the afternoon amid a drenching rain. A large acreage, however, has already been sown to wheat

The Yamhill *Courier* says: "The late rains have made the grain which has been sown come up with a rush. We hear of some that is already almost knee high. If the grain don't freeze out this winter there will be an enormous amount of wheat raised although there is not much more than half the amount of summer fallow that there was last year. The farmers seem to be afraid of a freeze this winter."

On the night of the 7th inst. the house and barn of Rev M C Dimick, in Clackamas county, were destroyed by fire. The family had moved to Hubbard a short time since and no one at the time occupied the premises, which is sufficient evidence to satisfy the people that it was the work of an incendiary. Suspicion rests upon a man living in the neighborhood. The loss comes heavy on Mr D at this time

On last Friday, says the Corvallis *Democrat*, W B Higby, a prominent attorney of this city met with a serious and painful accident by the explosion of a cartridge which he was loading. It appears that Mr H was engaged in changing cartridges preparatory to a hunting excursion, when one of them exploded tearing away the fleshy portion of the index finger and badly lacerating the whole of his left hand. The wound is very painful though not dangerous.

The *Independent* says: "By the financial exhibit of Washington county, which we publish elsewhere it will be seen that the commissioners expended $1,614 33 for bridges for the fiscal year ending July 1st 1875 as against $829 30 expended for the same purpose in the last year of the previous county administration. And for the last five months of the present fiscal year the commissioners have expended $1,510 56 for bridges and they expect to have to spend from $2,000 to $3,000 more before the end of the year."

A H Nelson has just returned from a trip through Eastern Oregon and informs the *Mercury* that stock in that section is looking well. An unusually heavy rainfall had occurred in the Ochoco country. Mr N came over the Cascades by the Santiam route and reports the roads in a fearful condition. The snow on the summit was some two and a half feet in depth for a distance of ten or twelve miles. Several teams were passed in the mountains, heading for this valley, and fears are entertained that they will have great difficulty in reaching here on account of the high stage of the Santiam river, it being already past fording at several crossings as Mr. N came down

Joseph Ferry's house, on the Coquille, was burned to the ground last week. His wife was sick at the time, and was sleeping with a young babe. The baby began to cry and the mother awoke just in time, unable to move, she called to Mr Ferry, who had just time to spring to his feet and carry out his wife and child, wrapped up in the bed clothing, barely escaping with their lives. No clothing was saved, excepting what they had on. Mr Ferry laid his wife in the brush and made her as comfortable as possible while he started off, almost naked, in the night, to get assistance. The nearest house was two miles away, and Mrs Ferry lay there in the brush with her baby until he returned.

A gentleman arrived at Camp Polk, Wasco county on the second, from Scio, via the Leadon route and said there had been high winds and considerable snow and rain in the mountains. The wind had blown down a great many large trees between Fish lake and the Mountain House. The Santiam river, he says has got past fording, and has washed away about one hundred yards of a grade one mile this side of the Mountain House. Mr Wm Smith, of Brownsville, lost a mule and harness in the Santiam and Mr Taber lost his saddle mule in the same place. There are sixteen wagons about the Mountain House on their way from the east, waiting to get across the mountains and the men are busy repairing the road. There are also five wagons at Fish lake and a drove of cattle this side of there going west. The snow is about two feet deep on the summits

The Albany *Democrat* is dissatisfied with the work of the assessor in Linn county this year. The assessor's report furnishes the following statistical information: Legal voters 2 180; males under 21 and over 10 years 1,281; under 10 years 1 400; females over 18 years 1 847; under 18 and over 10 years 737; under 10 years 1 323. Total population 9 84[illegible]. Acres of land under cultivation 79 158; bushels of wheat raised 993 630; bushels of oats, 519 604; bushels of barley 14 213; bushels of rye, 645; tons of hay 10 148; pounds of wool clipped 164 893; [illegible] taken from the [illegible]; bushels of corn raised 5 328; bushels of potatoes 29 014; bushels of apples 16[illegible]; number of sheep 4 [illegible]; hogs, 8 21[illegible]; [illegible] cattle, 12 5[illegible]9; mules 10[illegible]; [illegible] of tobacco raised 2 520; pounds of [illegible] made [illegible] 840; pounds of butter made [illegible]; feet of lumber manufactured 2 [illegible]. The *Democrat* thinks there are 14 000 people in the county and that twice the amount of wheat reported is raised

The hills on the north side of the Columbia, opposite The Dalles were covered with "the first pure flakes of snow that fell" on Friday morning of last week

The production of gold in Montana this year has been very satisfactory to the miners. Since last spring there has been an average monthly shipment of $100 000 in dust by Wells Fargo & Co from that Territory

The number of vessels entering at the custom house for Puget Sound district for October was 39, registering 23 200 tons; cleared during same time 65, embracing 17 203; total 74, registering 40 403 tons. The exports to foreign countries amounted to $83 1[illegible].

The grand jury at Vancouver submitted their report and were discharged. They reported that they failed to find two indictments, because the peace officers at Vancouver failed to do their duty, and that the conduct of those officers could not be too severely condemned. They also reported the county jail in an insecure condition and the blankets uncleanly and insufficient. So says the *Independent*

The Port Townsend *Argus* says, that a late assay of a specimen of the sandstone found at the head of Port Townsend Bay, made by Mr. Reichling of San Francisco, reveals the fact of the existence therein of both gold and silver. We have been shown a letter from a party in the above named city, giving some particulars connecting with the assaying of a fragment of the stone, which says "Two facts in relation to it are certain. First that close by and probably within twenty feet, there must necessarily be a well defined lead which carries both gold and silver; second that the further the lead is followed, the richer it is likely to be"

A correspondent of the Port Townsend *Argus*, writing under date of Neah Bay, Oct 27th, says, "On the night of the 23d inst. some Makah Indians were camped about three miles below Crescent Bay on their way down with some horses, when they felt a terrific earthquake, throwing them down and stampeding their horses. They were terribly frightened; one of them has not got over his fright yet. They say the 'illahe was awful ma sa che.' Parties above and below Crescent Bay did not notice it.—The Indians captured a huge whale a few days ago, and were fast to it for several days out of sight of land. It finally drifted ashore at Nit Nat, where it was cut up and brought home with great rejoicing by their friends, who had begun to mourn them as dead. This makes the second whale captured by the Makah Indians this season."

A REFORM THAT SHOULD NOT BE OVERLOOKED

It will be well for the country if in the agitation over the currency question and such other general issues as may be presented, the important matter of administrative reform is not lost sight of. While incapable of being brought into political contests as a distinctive issue, parties taking sides in their platforms as it is, nevertheless one of the most momentous concerns of the nation The whole system of administering public affairs is in such urgent need of overhauling as to make the subject one of national concern in the highest sense The idea which has become prevalent, in both National and State governments that public offices are personal perquisites to be used for the benefit of the incumbents, instead of public trusts to be held for the common weal must be eradicated It has honey-combed the public service and is sapping the foundations of free government In this lies the secret of our expensive administrations and high taxes. In this lies the foundation of the corrupt and corrupting theory that a successful politician may use his office to "take care of his friends" It is not the prominent politicians alone who put forth such propositions Were it confined to them, the evil would be comparatively easy to deal with, for the people would make short work with such politicians But the people themselves have given lodgment to the same dangerous notions. The man who takes care of his friends" is praised as one who is to be trusted above those who consider their offices as sacred trusts with which no friendship ought to interfere This notion must be dislodged from the public mind, as the first step to the reformation of public service Unless this is done, it is idle to expect any reform in administration The public service will be rotten till it comes to be understood that the *appointment of a man to office merely on the ground of personal friendship and as a reward for political assistance* to the appointing power is a dangerous thing for the popularity of all concerned This subject should be kept constantly in view, for there is none that lies nearer the foundations of our whole system of government

THE IMPRISONMENT OF THE BOYS

Four little boys were sent from Portland to the State Penitentiary last week, to serve a term for felony. The oldest of these lads is under fifteen and the youngest under ten years of age. And yet, young as they are, they are not sent up for their first offense, nor for the second They have all been before the Police Court several times, for offenses of lesser magnitude, and some, if not all of them, have served out terms of imprisonment in the county jail of this county They have been admonished by the Police Judge, remonstrated with by the police officers and by gentlemen interested in saving them from the end to which they have come, but admonition and remonstrance have been alike unavailing. At last they have come to the point to which hoodlumism leads. From the petty offenses of children, they went on, step by step, till, in the tender age of children, they committed the crimes of men, and now they are suffering the penalty which men suffer who commit such crimes as make it necessary to confine them in the State prison With hair cut short, and dressed in the livery of disgrace, they enter upon the stage of life

It does not not seem to be just the thing to send such children to such confinement Human nature, unadvised of the facts—except of the one fact that they are children—revolts at the idea But human nature, when possessed of all the facts ceases to revolt, and says it is right Efforts were made to restrain these young criminals by every means at command, and when at last the closing scene came and the sentence was pronounced which consigned them to felons' cells, to hard labor and disgrace, a last effort was made to have one, at least, of them, pardoned out and put under such restraint as would render it impossible for him to continue his criminal course. Everything failed, and all the children were carried off together.

Here is a lesson for parents and for children It is now demonstrated that boys that commit crimes will be punished. It is now proved that courts and juries will do their duty, and that the feelings of pity which have for children, will not stand between the law and the youthful rogue Boys may learn from this what to expect if they disregard the instruction of parents, and parents may see what their children will come to if permitted to run into vicious courses It is to be hoped this lesson will not be lost.

It is not likely all these four boys were worse by nature than many who have escaped the punishment they are receiving. It is not likely they were all so predisposed by nature to crime that they could not have been so trained as to make them respectable and useful members of society But one fell into evil ways and drew others after him At first it was one, then two, then others were drawn in, and at last the four go together to prison leaving behind them more who will soon meet them in the penitentiary, unless they abandon the courses they are now pursuing. It is the corrupting influence of evil association that has brought these boys to where they are. It is well they have gone, for they would only have led other boys into the same mode of life if they had been turned loose It will be well for the community when the next lot go, unless the cases of these lads shall deter the others from committing crimes If this is the only way for the community to be protected against the corrupting influence of these depraved children, let them all be confined in the penitentiary

An exchange puts the case very truthfully in our opinion when it says If President Grant were positively virtuous and had an af[illegible] purpose to run his g[illegible] [illegible] would have a p[illegible] [illegible] low Jewel or [illegible] in the cabinet and if he were positively virtuous and had an affirmative purpose to lift his administration above the influence of corrupting associations he never would have appointed Chandler" That tells the whole story It is not positive criminality at the head of the government that has given rise to the general dissatisfaction that prevails but a passive submission at times to the dictation of a class of politicians with whom unfortunately the President has had so intimate association and who do not hesitate to abuse his friendship to accomplish their own purposes At some times the most headstrong President the country ever had, except Jackson and Johnson Grant is at other times without exception the most facile President the country ever had

Central America seems to be in the situation of all other Spanish countries—unable to say by whom it is governed In Panama recently the Commander in Chief arrested the President—upset things generally, and organized a provincial government of which the only strange thing is he did not make himself the prominent figure He may succeed in conquering a peace and establishing something which will be lasting and at the same time better for the governed than that which he overthrew But if so the case will prove different in this particular from all other attempts of Spanish speaking people who have yet tried their hands at the problem of making and unmaking States

Who is Frazer? That is what we have been waiting to learn ever since the announcement in a London (Canada) dispatch that Frazer, who was one of the passengers on the ill fated *Pacific* had telegraphed his brother in that town that he had reached land in safety It is hardly possible that Frazer could have landed and sent such a telegram, without its being known out here But the only survivors known here are Jelley and Henley Either the telegram mentioned in the London dispatch is bogus or else one of the two survivors is not Jelley or Henley but Frazer Wonder if there isn't a case of ' youthful indiscretion ' somewhere back of this Frazer business

This advice from the St Paul *Press* should be remembered by every voter in every State at every election ' Ask yourself with regard to every candidate on your ticket Is he capable? Is he honest? and if you have a doubt on the subject, scratch out his name and substitute thereon the name of a man with regard to whom there is not a shadow of a doubt. Let the party go to the dogs if the party has been guilty of indorsing a rogue

Secretary Bristow is preparing a statment of the expenses of the Government by Departments from the time of its foundation down to date The statement will come down to the Centennial year and will be issued some time next summer The Department of the Navy has been brought down to date and the aggregate expenses of that department have been, in round numbers, a thousand million dollars.

To Proprietors Chemical Paint Company—Gents I had my house in Oakland painted with your paint It was warranted to be good and satisfactory in every respect. I was obliged to have the third coat put on to make it look as if it had been really painted and even then I think one good coat of Lead Paint would have given the house a better appearance I think you ought to make up to me the loss I sustained besides the annoyance I felt knowing that an inferior article had been put on when a No 1 article had been promised Hoping to hear from you soon on the subject I remain

MONDAY MORNING, NOVEMBER 15 1875.

CITY.

STABBED IN THE ARM.—An altercation occurred about 9 o clock last Saturday morning between Mike Meskel and the colored boot black, Isaac Cohagan, resulting in the former drawing a knife and striking the latter. The weapon took effect in the muscular portion of one arm, just below the shoulder and inflicting an ugly and painful gash. The circumstances of the affray are substantially as follows. Cohagan, early on Saturday, was in Morgan s saloon, on First street, engaged in cleaning the place out. Meskel, it seems was sitting in a chair in the saloon, and Cohagan accidentally or purposely poured some water on him, which made him very angry. Some very uncomplimentary remarks were indulged in between Meskel and Cohagan, and blows would doubtless have resulted had not those in the saloon interfered. Subsequently the parties met and a renewal of hostilities followed, resulting as above stated. Complaint was lodged in police court at once by Cohagan charging Meskel with assault with a dangerous weapon. He was arrested but released on his own recognizance. The case was continued until this morning, when an examination will be held.

THE REFORM SCHOOL QUESTION.—Pursuant to adjournment, a meeting will be held this (Monday) evening at the rooms of the Young Men s Christian Association by all of our citizens who feel an interest in the question of the establishment of a reform school in or near Portland. At the primary meeting held two weeks ago at Oro Fino Theatre the question of establishing a reform school was discussed in all its phases, and a committee appointed consisting of the following gentlemen J L Atkinson, A W Whalley, Wm Wadhams, W Thompson and G Shindler. A resolution, worded as follows, was also passed at the same meeting: *Resolved*, That a committee of five persons be appointed by the chair to devise ways and means for the purpose of establishing a reform school in Portland and to report at an adjourned meeting of this body. The object of the meeting this evening is to hear the report of the committee and take such other steps as may be deemed convenient. A full attendance of all friends of the important measure is requested.

PASSENGERS ON THE WAY.—Saturday forenoon the O. S. S. Co.'s steamer *Oriflamme* sailed from San Francisco for Portland. She brings the following passengers: Mrs L W Lillie, Miss A. L. Lillie, Mrs. Dolger and five children, A Dolger, H C, Stevens, H Easterbrook, L C Henrichson, J A Gibson, F S Prechel, J. Allison and wife, Mrs Ijams and two children, Mrs. P Richards, Mrs T W Harris and child, S. G Whipple, U S A, wife and servant, T Lowengart, W Hippitt, L Lachman, Carl Adler, G B Gray, A N Bush, Mrs. M. Reed and child, J Dols, E Kanten, F Mercier, H. H Wolf and wife, Mrs E A Burton, Mrs M L Taylor and three children, L Hall, T Hall, Mrs E Taylor, Mrs L Webber, Miss M E Johns, Miss J Jones, Miss J Davis, R L Morrison, Lt. W. F Stuart, U S A, H Benedict, L Bowman, G E. Powell, T R Dupre, Mrs F Warren and three children, R R Kelsey, B Kelsey, F Schittler and family, J. Ball and wife, J. Sebine, Texas Jack.

MARSTON BIANCHI OPERA TROUPE.—Mr Moore, business manager of the Marston Bianchi Opera Troupe, will remain in the city during the present week for the purpose of obtaining names to the subscription list, which has already been in circulation several days. He and Miss Fannie Marston—is now in the city, but the other members of the opera troupe are in San Francisco. If the required amount of money can be subscribed by our citizens the company will leave San Francisco at once for Portland. Four representations of opera will be given here, provided sufficient encouragement can be offered; Verdi s grand opera "Il Trovatore" will be given on the opening night; "Lucretia Borgia" (Donizetti) the second night, and "Ernani," Verdi's great dramatic opera, the third night. On the last night of the engagement portions of two operas will be rendered—first, act of "Barber of Seville," by Rossini, and first act of Donizetti's "Lucia di Lammermoor."

ALBINA.—The decision of the United States Circuit Court Friday morning, in the case of *The heirs of Hall vs. Edward Russell et al.*, settles the title to the town of Albina, in favor of the defendants, so far as it can be settled short of the supreme court. The points decided by the court were (1). That Loring, who it is claimed settled upon the land under the donation law, and died before complying with the provisions of the law, had no interest in the land capable of being devised, and therefore the plaintiffs who claim as his devisees could not take title by his will, and (2) that the statute of limitations passed in 1870, providing that suits to set aside or otherwise affect patents must be brought within five years from the date of the patent, or within one year from the passage of the act, is a bar to this suit, as the title is claimed under a patent issued to Joseph Delay, issued more than five years ago.

NAVAL COMBAT.—Two jolly sons of Neptune of the British ship *Baron Aberdeen*, who were somewhat the worse for imbibing too much grog, got into a quarrel on board ship yesterday morning and as they were not allowed to fight on the ship, concluded to settle their differences on terra firma, according to the rules of the P R. Accordingly, the combatants, with a number of their shipmates, came ashore, and very soon a ring was formed and the pugilists stripped for the conflict one of them particularly stipulating that his opponent should not strike 'below the belt.' A large crowd soon gathered on the wharf, and the pugilists stood up and fought like heroes but before either had sent his opponent "to grass," the police appeared on the scene and the fight was brought to a speedy and inglorious termination.

ORIENT.—Readers have not forgotten the disasters connected with the disablement of the hermaphrodite brig *Orient*, which for many months has been lying at Astoria. This vessel, while sailing out of Shoalwater Bay with a cargo of lumber for San Francisco, got aground and was considerably damaged. She was towed around to Astoria to be repaired. It was a long time before the contractor, who undertook to make the required repairs could get the vessel beached. At length all difficulties have been surmounted and the leaky and strained vessel has again been placed in a seaworthy condition. The lumber that was brought from Shoalwater Bay and which it was necessary to discharge before the disabled vessel could be overhauled, is now being put on board again. In a short time the *Orient* will be ready to sail for her destination.—San Francisco.

NOT THE BOY.—Both the Salem *Mercury* and Albany *Democrat*, in speaking of the boy Johnny Dougherty, who, along with three other lads, was sentenced to the penitentiary for four years for larceny, state that he is the same individual who acted as Page in the lower branch of the Oregon Legislature at the last session of that body, and is a "retired printer s devil." This is altogether a mistake. Johnny Doherty who acted as Page and is a "retired 'printers devil' is a steady industrious lad, and bears a good name for truth and honesty among those who know him in this city, the same which cannot be truthfully said of the other boy, who bears the same name. We make this statement as a matter of justice to our little friend 'Fobey,' as he is familiarly known, and to prevent a wrong impression going abroad.

FRACTURED SHAFT.—A few days since, while the steamer *Bonita* was on the way to this place from Astoria it was discovered that there was a flaw in the shaft of her wheel. Not knowing when the shaft might be twisted asunder, it was thought prudent by the company to place the steamer temporarily on the retired list, until the damage can be repaired. The *Bonita* is at present at the boneyard, where she will remain until a new shaft is in position. We are informed that a new shaft is on the way from San Francisco which will take the place of the damaged one. On Friday morning the steamer *Jane McNear* made the trip to Astoria in place of the *Bonita*. This morning the elegant and commodious steamer *Emma Hayward* will take the route until the *Bonita* is again ready for service.

A LARGE SALE.—Mr. A. B. Robertson sold at auction last Saturday morning the following real estate: a piece of land containing twenty acres, situated in section 17, for $140; lot in block 18 in Watts's addition for $300.

DEATH OF MR SPRENGER.—Mr. Jacob B. Sprenger the well known hotel man, died yesterday at the residence of Capt. John Cochran, near Hubbard's station. Some weeks ago deceased was prostrated from the effects of a severe attack of hemorrhage of the lungs while visiting friends in Linn county. Consumption soon began its work, and terminated Mr. Sprenger s life after a brief illness. As soon as his condition would permit after the first attack Mr Sprenger was conveyed to the residence of his brother in law Capt Cochran, where he breathed his last. Mr Sprenger some years ago kept hotel in Albany. Twice his hotel was destroyed by fire when he removed to Portland, where for the last five years he has been engaged in the business. He has been mine host successively at the Cosmopolitan Occidental and St Charles and until quite recently was keeping a boarding house in the city. Although somewhat unsuccessful in business Mr Sprenger was a gentleman of great enterprise and tireless energy. At the time of his death he was 41 —months and 28 days. His funeral obsequies will take place to morrow.

THE RECOVERED BODY.—We are informed that the body of the unfortunate woman which was found floating in the vicinity of where the steamer *Pacific* is supposed to have taken her final plunge, and picked up by the crew on the tug *Gohah* (a full account of which will be found elsewhere) proves to be the wife of Joseph Hellmuth of Walla Walla and sister of Mrs Farg Aly of this city. Three rings were found on the woman s fingers on one of which were the letters "O H" which are intended to stand for the name of Odelia Hellmuth. Mrs Farg Aly has telegraphed to Port Townsend to have the body sent to this city for interment, and also the body of her brother in law if it should be recovered.

HEAVY FALL.—Saturday morning a carpenter named Thompson who was engaged in erecting a barn on the side of the mountain in a southeasterly direction from the city, had the misfortune to fall from the roof. While engaged in putting on the shingles his foot slipped, and having nothing to which he could grasp he came to the ground, a considerable distance. No bones were fractured but the violence of the fall partially paralyzed him. A surgeon who was summoned made an examination of the man s condition. He pronounced the case not a dangerous one as no internal injuries were sustained. With careful treatment the man will probably recover in a few days from the effects of the shock.

DAY OF INTERCESSION.—The *Oregon Churchman* says: St Andrew's Day Tuesday Nov 30th has been appointed by the authorities of the Church of England and also recommended by our own board of missions to be observed as a special day of intercession in behalf of the ministry and the missionary work of the Church, the bishop requests that all our churches and chapels be opened on that day for divine service and that our people engage with an earnest and devout spirit in prayer to Almighty God that He will send forth more laborers in His vineyard, and that He will vouchsafe His blessing upon all orders and degrees of the ministry. Special collects for this service will be set forth in due time.

ARRESTED FOR CONTEMPT.—Isaac Cohagan, who according to a recent dramatic production from the pen of a well known member of the Portland bar, "is always tired" was arrested last Saturday afternoon for contempt of court. Cohagan was prosecuting witness in the case of State vs Mike Meskel, charged with assault with a dangerous weapon. The case was set for examination before Judge Adams, at 3 o'clock Saturday afternoon, but the prosecuting witness failed to make his appearance whereupon a bench warrant was issued for Cohagan's arrest. He will be required this morning to show cause why he should neglect to obey the summons of the court.

TELEGRAPHIC IMPROVEMENTS.—Mr Thompson one of the W U T Co's repairers, will start this morning for Lewis river for the purpose of raising a lofty staff, from the top of which a telegraph wire will be stretched across that stream. On one side of the river is a high perpendicular bank, and on the opposite side the country is nearly level with the waters of the stream. As the river is navigated by steamers and crafts of different kinds it is found necessary to place the wire at a sufficient altitude so as not to interfere with the boats ascending and descending. To accomplish this it will be necessary only to erect one staff.

THE JANE A FALKINBURG.—This handsome and swift winged barkentine is in the river and will doubtless reach here some time this morning in tow of the *Annie Stewart*. The *Falkinburg* reached Astoria on Friday having made the passage from Honolulu in *thirteen days*. Very fair winds were experienced from port to port and the sails did not have to be reefed until the bar was reached. On the downward voyage she did not make such time. She was twice as long as in coming up the last time—28 days. A full cargo of sugar and molasses is on board.

TURNS UP ALL RIGHT.—Barney McCagh who left this city several weeks ago in company with Messrs Rockwell & Hurlburt's troupe bound for Victoria, and who, it was supposed had embarked on board the steamer *Pacific* and was among the lost returned to this city last Saturday all right. Barney was a wise lad and left the troupe just before the steamer sailed. He has no occasion to regret his choice now. Those who supposed he was down among the kelp were not a little surprised to see him again on our streets.

MISSIONARY CONVOCATION APPOINTED.—Bishop Morris has appointed a Missionary Convocation, to meet in Grace church, Astoria, the 1st of December. The clergy appointed to attend with the bishop are the Rev Mr Babcock of Salem, the Rev Mr Fischer of Olympia the Rev J W Sellwood of Oregon City, and the Rev Mr Rosenberg of Portland. The convocation will meet on Wednesday and continue in session over Sunday.

AT ASTORIA AND THE CAPE.—From the officers on the Astoria packet, we learn that the following vessels are now lying at Astoria and about ready to proceed to sea: *Benj. Sewall*, *Lanarkshire* and *Loch Fleet*. The *Rosa Welt* and *City of Perth* are both anchored off the cape awaiting a favorable opportunity to cross the bar.

BIG SALE OF PROPERTY.—At 10 o clock this morning an important sale will take place at the Court House under the direction of Sheriff Jeffery. The property is too well known to require mention here. Full particulars in the advertisement on second page.

TERM OF COURT.—Judge Shattuck will go to Oregon City this morning where he will open the regular term of the State circuit court for Clackamas county. We understand the docket to be disposed of is a light one.

SCHOOL TAX SALE.—The sale of property for delinquent school taxes in this district will begin at the court house door this forenoon and those interested can take notice and govern themselves accordingly.

BUSINESS NOTICES

Mr C H Perkins, mine host of the St Charles hotel, makes his announcement elsewhere.

AMUSEMENTS.

ENTERTAINMENT.—By consulting the advertising columns the public will observe that a musical and literary entertainment will be given on Friday evening, November 19th at Masonic Hall under the auspices of the ladies connected with the Unitarian church. In addition to our best home talent in a literary and musical point of view can be named several professionals who are by no means strangers to this public. As belonging to the latter class we mention the names of Miss Fannie Marston the popular California prima donna who will favor the audience with several vocal selections. Miss Imogene Holbrook, the splendid elocutionist and reader has likewise volunteered and will give one or more recitations. Miss Emma Miller, late of the Boston Conservatory of Music, will also give the public some of the results of her past study and careful musical training at that institution for several years past. Master Bivens the wonderful child pianist late of San Francisco will appear and render a solo. The Amphion Quartette Club have also kindly volunteered for the occasion.

We all know "a thing of beauty is a joy for ever" so is your little boy in the night drawers with stockings. Cor corner of Fourth and Ash streets for the pattern.

The steamer *Ajax* brought another large invoice of goods for BECK & WALDMAN who are determined to keep their customers supplied with the very latest styles as introduced in the San Francisco market. It is really astonishing to see the immense stock carried by this house when we consider the fact that these are dull times and people are naturally disposed to hold on to coin. But the firm have made their purchases at an advantage and can offer their customers rare bargains. Call and satisfy yourself and recollect the place Front and Washington streets.

POND'S EXTRACT.—Among the many efficient Family Medicines which have from time to time appeared before the public, there is not one so generally useful so simple and so truly curative as POND'S EXTRACT. A glance over the long catalogue of ills and diseases which it is reputed to cure will convince us if any faith can be placed in human testimony that this is one of the rarest and most useful medicines, if not the most truly valuable remedy ever made known. For nearly thirty years has been in extensive use among the people and profession, and though its excellence has been a thousand times subjected to searching scrutiny yet in every instance these claims have been triumphantly vindicated. The people, to whom from long use and experience it has become indispensable, have universally given it their approval and the medical profession though generally slow to admit a new medicine or to endorse anything but their own practice have in thousands of instances adopted it and not only use it freely but cheerfully recommend it. Like a true friend the more we use it and know it the better we like it.

HARD MONEY '

A COUPLE OF DANBURY STATESMEN DISCUSS THE FINANCIAL QUESTION

A Danbury man was looking at his yard Thursday afternoon He was looking at it in such a way as to easily attract the attention of any neighbor who might have a lot of unemployed time on hand Such a party pretty soon joined the observer and immediately took an all absorbing interest in the contemplated improvement From this subject they rapidly drifted into finance

Pretty tough times, observed the neighbor

Yes they are that, an' it'd be tougher before we're over it, I imagine,' was the answer

They were both sitting on a saw horse under an apple tree near the back door when this conversation commenced The owner of the premises was chewing on a bit of straw and the neighbor was mechanically pulling tops from the plantain in reach

' What do you think of this money question which has entered into politics this year ' inquired the neighbor

I think it will be settled one way or the other before another Presidential election is ever reported the owner You see the [illegible] [illegible]

Zekiel [illegible] promoted a sharp voice from the stoop

Well what is it ? he curtly inquired

' I want you to get me a pail of water

In a minute—as I was saying the matter is being pressed with unusual force There has been this effort for years to connect with a specie basis but nothing definite has been reached Now, I imagine this campaign will settle it

You believe specie to be the best currency of course?

Certainly What does the increase of paper money amount—

Zekiel !" came the voice from the stoop

In a minute—all the paper you might print from now till—

Zekiel !

' Thunder and lighting Maria what is the matter ?" he passionately ejaculated

' I want you to get me a pail of water, I m waiting for it

' I'll get it in a minute if you'll just hold your breath. You might as I said, print money till doomsday an' if you ain t got the gold to back it up what is it going to amount to? As far as exchange is concerned among ourselves, I will admit that paper——"

"Zekiel!"

"Good gracious, Maria, what do you want?"

" I want a pail of water, I've told you a dozen times. If you don't hurry up about it you'll have to go without dinner."

' Where is the pail ?" snapped the annoyed husband, seeing it in her hand It's a pity if I cannot get a chance to say a word without being put out every minute '

Seeing him rise up, she set the pail down on the stoop and retired and he, helping himself to a fresh straw began again

' As I was sayin' paper is well enough among ourselves as a matter of exchange, but what are we going to do for imports? We can't get along without gold then And what are we going to do when this money is called in, if we haven't gold enough to redeem it? Now suppose, for instance, that I had ten—"

' Zekiel ' came the voice again, but he did not hear it

—thousand dollars in cash, an' supposin' I wanted to use $40,000 What do I do? I take—

Zekiel ! why on earth don't you stop your words and get a pail of water ?"

Yes yes in a minute—an I take my paper on the market for that amount Here is $10 000 in cash you see, and here is the—woosh—gar—r !

And just here the gasping husband was awed into silence by seeing his neighbor dash over the fence in a dripping condition The $40,000 on paper was not there as might have reasonably been expected but a pail of different water was there hurled with all the force and fury an exasperated woman is capable of

And as the choking expounder of specie as a basis reached out spasmodically for his breath the interested neighbor with fully two thirds of the contents of the bucket in his hair and under his coat collar, sped across the lots with the vehemence that was really marvelous as an exhibition of speed, and with a silence in regard to the cause which was born of twenty years married life

In the old countries people have to run farther for a doctor than than we do here Germany, with a population of 42 000 000, last year graduated six hundred and sixty physicians, rejecting one hundred and eight applicants. In the same time the United States, whith a population of 40 000 000 graduated three thousand physicians '

Von Bulow notwithstanding his thin legs and eye-glasses, did not have any Boston applause prepared for him But when he said, "I love Beethoven, Mozart, Chopin and Liszt but give me every Sunday morning my brown bread and beans " Boston rose and said "There is a man who can interpret the masters."

The week closing has been one of a good deal of activity in several business circles notwithstanding the exceedingly stormy weather which has prevailed most of the time Transactions in the several departments of business have been quite satisfactory and the banks report a brisk demand for accommodations on terms now current The disposition on the part of the financial institutions to keep their means well within reach so as to be able to control them on as short notice as possible is still observed but such prudence while it has not been so strictly carried out as to hamper the course of business has brought the customers of the banks through a season of very great uncertainty and has proved that safety depended alone strictly on just such a policy.

The movement in the general merchandise market is beginning to show signs of the passing of the bulk of the fall trade though quite a number of buyers are yet in the market for winter stocks a large many are yet [illegible] to fill up depleted stocks in the interior The bark Atlanta Falkinburg is at hand with a full cargo of sandwich Island products some of which are already quoted in the market and her arrival is timely The bark Mattie Macleay is also due from Honolulu

The produce market is unchanged in any material particular The outgoing shipments are heavy and receipts at this point are large Prices for grain and flour show but little disposition to fluctuate and the quotations last given still hold good The wheat market is reported a little weaker but no transactions occurring to establish prices lower than $1 [illegible]

Shipping Intelligence

The steamship John L Stephens probably sailed from San Francisco at the usual hour to-day for Portland

The grain fleet here is disposed as follows Grisedale at Pacific wharf Collingwood at Central Geo Moon and Ada Iredale at Flanders and Baron Aberdare at the Gas Company's dock

The schooner Hera will load wheat for San Francisco and sail in a few days

The brig Orient is receiving cargo for San Francisco at Astoria and will be off next week with Captain Bachelder at the helm

The British ship City of Vienna reported by telegraph as arriving at Liverpool is probably the Br ship City of Vienna

The bark Blanche was taken along the Hy Rhodes & Co s wharf at Victoria last week to remove her cargo of wheat which had shifted in the gale She will also receive repairs to her yards and sails

The brig Perpetua from San Francisco with a cargo of assorted merchandise reached her berth in this city to day
